### Youth Academy Instruction

Parents,

Your child will be receiving classroom instruction by the Delaware National Guard. As part of their participation your child will be introduced to a simulator. ( A screen that displays a video that utilizes a nonfunctioning handheld firearm ) The firearm has no working capability to be a real firearm. The firearm has a laser in the barrel area which allows the students to aim at the targets on the screen. This is very similar to today's X-box videos games. However, they are not violent in nature.

In order for your student to participate in this course, parental approval must be obtained.

Yes, I agree to allow my child to participate in this course.

---

Parent signature

No, I do not allow my child to participate in this course.
